WELCOME

On behalf of the organizing committee, it is our pleasure to invite you to participate in the 2021 The 4th International Conference on Image and Graphics Processing (ICIGP 2021) to be held in the beautiful city of Sanya, China on January 1-3, 2021.

The first three editions of the conference took place in Hong Kong in 2018, in Singapore in 2019 and 2020, and each was a success. This has encouraged the organizing committee to take this tradition to the next level by organizing the 4th edition of this conference in Sanya, China, where all stakeholders working on various aspects of image and graphics processing can come together. The aim is to make this event a forum for discussion, knowledge exchange and fruitful interactions among participants in this exponentially growing field.

PROCEEDINGS

Accepted papers after proper registration and presentation will be published in the International Conference Proceedings Series by ACM (ISBN: 978-1-4503-8910-5), which will be archived in the ACM Digital Library, and indexed by EI Compendex, Scopus, etc.

Prof. Huafeng Liu, Zhejiang University, China
Prof. Lik-Kwan Shark, University of Central Lancashire, UK

PROGRAM CHAIRS
Prof. Xianye Ben, Shandong University, China
Prof. Ke Chen, University of Liverpool, UK
Prof. Xianye Ben, Shandong University, China

STEERING COMMITTEE
Prof. Wenyu Liu, Shanghai Jiaotong University, China
Prof. Eduardo Provenzi, University of Bordeaux, France

PUBLICITY CHAIRS
Prof. Tien Y. P. Ng, University of Science and Technology, China
Prof. Nanrui Gao, Hong Kong Polytechnic University, Hong Kong, China

CONFERENCE SECRETARY
Prof. Nobuhiko Mukai, Tokyo City University, Japan
Prof. Giuliani Donatella, University of Bologna, Italy

LOCAL ORGANIZATIONAL COMMITTEE
Prof. Hui Li, Hainan University, China
Prof. Wei Li, Hainan University, China

TOPICS

- Image Segmentation
- Wavelet Transforms
- Image Coding and Compression
- Image Acquisision
- Invariant Image Processing
- Higher Order Statistical Analysis
- Filter Design and Structures
- Discrete Hilbert Transforms
- Fast Fourier Transforms
- Signal Noise Control
- Sonar Imaging Processing
- Cyclo-stationary Signal Analysis
- Petromm recognition and analysis
- Medical image processing
- Multidimensional Signal Processing
- Array Signal Processing
- Discrete Cosine Transforms
- Image and Surface Reconstruction
- Industrial Applications
