On behalf of the organizing committee, it is our pleasure to invite you to participate in the 2021 The 4th International Conference on Image and Graphics Processing (ICIGP 2021) to be held in the beautiful city of Sanya, China on January 1-3, 2021.

The first three editions of the conference took place in Hong Kong in 2018, in Singapore in 2019 and 2020, and each was a success. This has encouraged the organizing committee to take this tradition to the next level by organizing the 4th edition of this conference in Sanya, China, where all stakeholders working on various aspects of image and graphics processing can come together. The aim is to make this event a forum for discussion, knowledge exchange and fruitful interactions among participants in this exponentially growing field.

PROCEDINGS
Accepted papers after proper registration and presentation will be published in the International Conference Proceedings Series by ACM (ISBN: 978-1-4503-8910-5), which will be archived in the ACM Digital Library, and indexed by EI Compendex, Scopus, etc.

Prof. Nobuhiko Muki, Tokyo City University, Japan
LOCAL CHAIR
Prof. Hui Li, Nanyang University, China
PROGRAM CHAIRS
Prof. Dexing Kong, Zhejiang University, China
Prof. Lihua Zhang, Fudan University, China
Prof. Ke Chen, University of Liverpool, UK
Prof. Xianye Ben, Shandong University, China
PROGRAM CO-CHAIRS
Prof. Dean Wang, University of Central Lancashire, UK
Prof. Huafeng Liu, Zhejiang University, China
Prof. Manoranjan Paul, Charles Sturt University, Australia
STEERING COMMITTEE
Prof. Wenyao Liu, Shanghai Jiaotong University, China
Prof. Eduardo Provenzi, University of Bordeaux, France
PUBLICITY CHAIRS
Prof. Ting Li, HK, Shaanxi University of Science and Technology, China
Assoc. Prof. Lei Chen, Shandong University, China
KEYNOTE SPEAKERS
Prof. Wan-Chi Sia - IEEE Life Fellow & IET Fellow
Hong Kong Polytechnic University, Hong Kong, China
Prof. Weisi Lin - IEEE Fellow
Nanyang Technological University, Singapore
Prof. Ce Zhu - IEEE Fellow
University of Electronic Science and Technology of China, China
Prof. Ioannis Pitas - IEEE Fellow
Aristotle University of Thessaloniki, Greece

TOPICS
(For more topics please check http://icigp.org/cfp.html)
- Image Segmentation
- Wavelet Transforms
- Image Code Coding and Compression
- Image Acquisition
- UP Convolution
- Higher Order Statistical Analysis
- Fast Fourier Transforms
- Signal Noise Control
- Sonar Image Processing
- Cyclo-stationary Signal Analysis
- Pattern recognition and analysis
- Radon Transform
- Multidimensional Signal Processing
- Array Signal Processing
- Discrete Cosine Transforms
- Discrete and Surface Reconstruction
- Industrial Applications
